

2024 Training and e-Learning Course Calendar

Enroll in Courses

Moderated Courses

These courses are offered through the platform with the support of a moderator and a tutor. The moderator ensures all administrative issues are addressed and the tutor provides the technical expertise and answers all questions related to the subject matter.

In a moderated course, the moderator and the tutor meet with the registered learners in a live session for one hour per week for the duration of the course.

One or two modules are released each week and a course has a set time of four to six weeks for completion.

Introduction to Network Operations

cycle 1 | 15 January – 11 February

Cycle 2 08 April – 05 May

os May–10 June

30 September–27 October

Encryption

cycle 1 | 15 January – 11 February

cycle 2 08 April – 05 May

08 May-10 June

cycle 4 30 September–27 October

Fundamentals of Designing and Deploying Computer Networks

cycle 1 | 15 January – 25 February

08 April–19 May

Cycle 3 24 June – 04 August

What the Internet Needs to Thrive

How to Write an Internet Impact Brief - (Toolkit)

In 2024, the Internet Society will recognize learners have acquired knowledge and skills by taking more than one course in an area of specialization. When learners successfully complete a track, they earn a certificate of completion and qualify to join our alumni network.

Network Operations Specialist

This certification is for those who have completed:

- Fundamentals of Designing and Deploying Computer Networks
- Introduction to Network Operations 1.0
- Advanced Network Operations 2.0
- IPV6

Online Safety Specialist

This certification is for those who have completed:

- Digital Footprints
- Privacy
- Encryption
- Internet Security

Internet Defense Champion

This certification is for those who have completed:

- · What the Internet Needs to Exist
- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Fundamentals of Designing and Deploying Computer Networks
- Encryption
- Digital Footprints
- Privacy

Internet Policy and Advocacy Champion

This certification is for those who have completed:

- What the Internet Needs to Exist
- What the Internet Needs to Thrive
- · How to Write an Internet Impact Brief
- Encryption
- Internet Governance

Government Track - Internet Policy and Advocacy Champion

This certification is for those who have completed:

- · What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Government Encryption
- Internet Governance
